STATEMENT OF SUBSTANCE OF INTERVIEW

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

A telephonic interview was conducted in connection with the above-identified patent application on July 18, 2003. The substance of that interview is as follows:

Brief Description of the Nature of Any Exhibit Shown or Any Demonstration Conducted:

None.

Identification of the Claims Discussed:

Claim 55

Identification of the Specific Prior Art Discussed:

U.S. Patent No. 5,978,796 to Malloy, et al.

Identification of the Principal Proposed Amendments of a Substantive Nature Discussed, Unless these are Already Described on the Interview Summary Form Completed by the Examiner:

No claim amendments proposed.

Brief Identification of the General Thrust of the Principal Arguments Presented to the Examiner:

The arguments presented by applicants' representative included an assertion that the Examiner is in error to conclude that "the number of features to be mined in the present invention is equivalent to prior art dimension identifiers which represent the points of interest or measures to be mined."

General Indication of any other Pertinent Matters Discussed:

Applicants' representative pointed out that feature identification is not the same as or equivalent to a dimension identifier.

General Results or Outcome of the Interview:

No agreement was reached. The Examiner was not completely familiarized with the specification and the definition of "feature identification" and other expressions included in the claims to make a fair comparison between the pending claims and the prior art of record.

Respectfully submitted,
